PROFILE INFO

Hi, I'm Jitendra, a passionate web developer and designer specializing in HTML, CSS, JavaScript, and Python. I have a keen interest in creating responsive and user-friendly websites. Currently, I'm focused on enhancing my skills in JavaScript and Python. I love exploring new technologies and staying updated with industry trends. Reach out to me for collaborations or web development projects!

EXPERIENCE

WEB DEVELOPER & DESIGNER   2023 - Present

- Developed websites using HTML, CSS, JavaScript, and Python, ensuring responsive and user-friendly designs. Focused on both front-end and back-end development to create functional, interactive web pages.

WEB DEVELOPER   2022 - 2023
FREELANCE PROJECTS

- Worked on various freelance web development projects, collaborating with clients to meet their specific design and functionality needs. Built websites using HTML, CSS, JavaScript, and integrated Python for backend functionalities.

ACHIVEMENT

- **2023 – present**
  Learning web development, focusing on HTML, CSS, JavaScript, and Python to build responsive and interactive websites.

- **2024 - present**
  Actively working on personal projects to apply learned skills and gain hands-on experience in web design and development.
